<b>Number in the 3-Year-Old Program 08/09</b>	12
<b>Number of Coordinators</b>	1
<b>Number of Parent Educators</b>	3

In 2010 Senator Tom Butler gave us \$10,000.00 for our program, with this money we are able to serve more children and continue to have success stories like the ones shared below:

I am the proud mother of 3 children. My middle child is currently 3 years old and enrolled in the HIPPIY Program. The HIPPIY Program has enriched my child. He loves the program and looks forward to the daily lessons. This program enables parents to educate their children accurately and effectively with guidance that is much needed. I am a nurse and it is wonderful having a guideline that helps me to educate my child. I can see how beneficial the program is to my child and I wish it had been around for my 9 year old, I know his transition to school would have been much easier if he had had the program. -Nicole Guyton

My four year old son has truly benefited from the HIPPIY Program. In just the few weeks (approximately 9) we've been following the criteria outlined in this program, we've seen some major changes. He enjoys the assignments and is eager to do them. As cliché as it may sound, he's actually learning a lot while having fun – a solid and sure foundation for a lifelong love of learning. He even wakes up most mornings and request that we “work on HIPPIY”! This program is doing an excellent job of preparing our little one for kindergarten, which has drastically changed since our oldest son attended. Preparation is key and I believe this program does a fantastic job of calming the fears of a child entering grade school, teaching the parent how to help the child and assist the teacher's goals outside of the classroom, and it reduces the need for financial support to bring a child up to par with his/her studies.

-Carmen Everson
